

# commercial

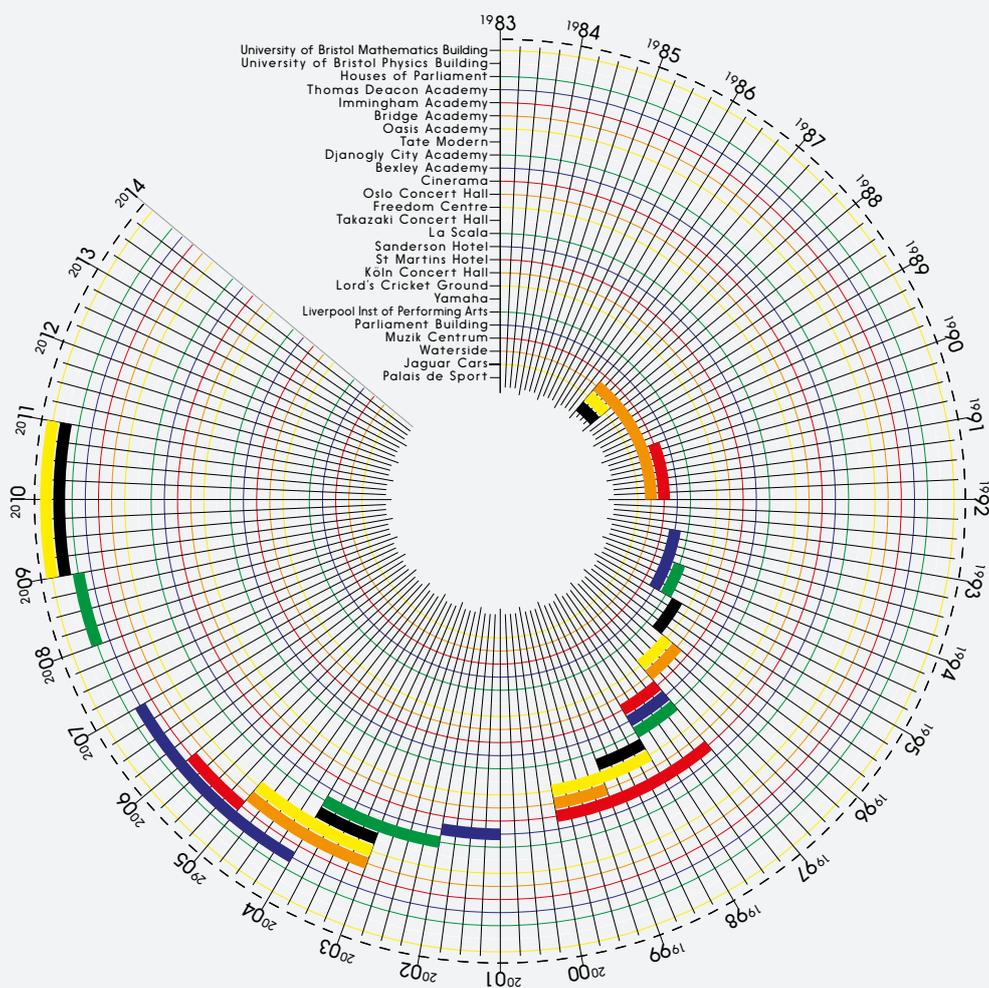

Universities and colleges. Government buildings. Museums, galleries, cinemas and concert halls. Sporting venues. Luxury hotels. Harris Grant makes every public venue sound like a million dollars... and much more. A formidable reputation for excellence is founded on cutting-edge acoustic techniques, like custom diffusers that precisely shape the sonic character of any architectural space. With Harris Grant you'll always hear the difference. There are few acoustic and technical design consultancies who can match the creative ambitions, technical expertise or sheer global reach of Harris Grant.

From major performance spaces in the US and Asia to one of the UK's most visionary educational establishments, Harris Grant brings impeccable sound and extraordinary style to an audience of millions.
