

marine

Harris Grant designs, installs and maintains AV entertainment, control, security and communication systems for an impressive roster of the world's most lavish superyachts. Fusing leading-edge technologies with an instinctive sense of luxury and craftsmanship, you'll see our unique signature on a spectacular range of innovative and opulent sea-borne projects – from newly commissioned vessels to refits and upgrades.

From concept to commissioning, Harris Grant's relationships with many of the world's leading shipyards, marine architects, interior designers and brokers assure a satisfyingly seamless, integrated service. Working in close partnership with his clients, Neil Grant personally oversees every marine project to ensure that expectations are unfailingly met and exceeded.
